

Countertop Scooping Displays

These stunning displays come with an elegant glass lid on a stainless steel base that houses the refrigeration system and have a digital temperature indicator. It comes with 3 & 4 x 5L pans. However, you have the flexibility to display more flavours of ice cream or gelato by using GN 1/6 pans (not supplied with the machine). The NEU model comes with a curved glass lid and the Premia & DTF-3 has a stunning flat glass lid. All the models are aided by a pair of strong hydraulic hinges for ease of lifting/opening. These models also come with a stylish LED lighting to perk up the displayed foodstuff and are ideal for self service applications such as outdoor catering and buffets. The scooping displays can be placed on a counter or carefully planned as a drop-in.
